

**M.D. of Opportunity No 17**  
**TRANSPORTATION POLICY**

TITLE: **CONSTRUCTION & UPGRADE OF NEW & EXISTING  
APPROACHES/DRIVEWAYS**

EFFECTIVE DATE: **AUGUST 13, 2008**

POLICY NUMBER: **T.20**

---

**Purpose of Policy:**

This policy is intended to ensure an approach and driveway is provided in a location and to a standard that is considered safe and practical for that use. The policy sets the criteria and standards for construction and upgrade of approaches and driveways within the Municipal District of Opportunity No. 17.

---

**Policy Statements**

**A. Construction of Approach & Driveway:**

1. The Municipal District of Opportunity No. 17 shall install one approach and driveway on a one time basis where it is deemed cost effective to the following:
  - a) to approved existing residential properties;
  - b) to new municipally developed subdivisions;
  - c) to new municipally constructed residential properties requiring water/sewer tank utility services;
2. All constructed approaches and driveways shall conform to the specification standards as set out by the municipality.
3. All requests for the installation of approaches and driveways shall be submitted in writing and approved for location, safety and if they are determined practical by the municipal administration.
4. An approach and driveway shall only be installed as budget restraints allow.

**B. Repair of Approach & Driveway:**

1. The Municipal District of Opportunity No. 17 shall be responsible for the repair of approaches and driveways at the discretion of administration.
